# About GPSENKE

GPSENKE NETWORK ICT (referred to as GPSENKE) was founded in 2003 which is a comprehensive high-tech enterprise integrating technology research and development, production, sales, and service.

GPSENKE specializes in producing various communication equipment, including industrial wireless APs, industrial switches, 4G/5G routers, WiFi routers, edge computing gateways, and other devices. It provides comprehensive customized network solutions for a variety of different industrial sectors such as rail transit, coal mining, oil and petrochemicals, smart warehousing, factory automation, wind power new energy, electric power, smart cities, and military industry.

Oil and Petrochemical

New Energy & Power

Mining&Pipeline

Metallurgical Industry

Automation Factory

Warehousing AGV&AMR

Smart Transportation

Railways&Rail Train

Smart City

## WAPI Server/ Firewall Server

<b>Product</b>	WAPI Server
<b>Model</b>	GP-AS2000
<b>license</b>	2000
<b>Port</b>	8*10/100/1000Base-T RJ45
<b>Management</b>	GPSENKE Management, SNMP V1/V2c/V3, Trap, Telnet, FTP/TFTP, WEB
<b>Power</b>	220V
<b>Installation</b>	Rack Mounting

<b>Product</b>	Firewall Server
<b>Model</b>	GP-FH400

- Adaptive Network Access Mode
- Comprehensive State Packet Filtering
- Support Full NAT
- Flexible Connection Limits
- Virus Filtering
- VPN Functionality
- Powerful Anti-Attack Capabilities
- Tiered Security Management Permissions
- Web Filtering
- User Authentication
- IPS (Intrusion Prevention System)
- High Availability (HA) and Redundancy
- Comprehensive System Monitoring
- Rich and Secure Management Options
- Seamless System Upgrades
- Configuration Import and Export

<b>USB</b>	1*USB	1*USB
<b>RS485</b>	-R: Without RS485 Port; -RD: With RS485 Port	
<b>Features</b>	ERPS/STP/RSTP/MSTP/VLAN/QinQ/Port Mirroring/Multicast/ACL/IGMP/QoS/LLDP/802.1X/ Dying Gasp/SFP DDM/RMON/DHCP/RADIUS /IPV6 management/Web/SNMP/Telnet/TFTP/Web upgrading	
<b>Size</b>	440x45x 280mm	440x45x 280mm
<b>Weight</b>	5.3 kg	5.3 kg
<b>Power</b>	2D4: Dual DC Power Redundancy 36-75VDC 2V2: Dual AC/DCPower Redundancy 100-240VAC/100-370VDC 50/60Hz	
<b>Temperature</b>	-40-75°C	-40-75°C
<b>Protection</b>	IP40	IP40

# ACCESSORIES

## Accessories

Antenna/SFP Modular/PoE Power/ Jumper·Feeder

### Antenna Series

- Omnidirectional
- Directional
- Fiberglass Antenna
- E.X Antenna
- Rubber Duck Antenna
- Panel Antenna
- Dish Antenna

### SFP Modular

- 10G Multi Mode Dual Fiber
- 10G Single Mode Single Fiber
- 1000M Single Mode Dual Fiber
- 1000M Single Mode Single Fiber
- 1000M ETH Modular
- 100M Multi Mode Dual Fiber
- 100M Single Mode Single Fiber

### PoE Power Module

- 48V PoE Power
- 24V PoE Power
- PoE Splitter
- PoE Repeater

### Solar Power System

- 80W 100W 200W 300W
- Boost Controller
- DC12V Out-put
- Detachable Bracket

### Feeder·Jumper

- Length/Port Type can be customized

**Note:** Please consult our company for specific accessory models and parameters!

*Build an industrial ecosystem driven by intelligent communication, create an efficient collaborative network, and promote industrial upgrading and value sharing!*

## About Customization

At GPSENKE, we offer not only standardized communication devices but also customized solutions tailored to meet the unique requirements of each project. We focus on flexible hardware and software customization to ensure our clients receive the most suitable solutions. Our key customization services include:

### Hardware Design Customization

We can customize the design, dimensions, and materials of hardware devices based on your specific needs, ensuring they are suitable for different environments and applications.

### Software Program Customization

We provide professional software development services, allowing us to tailor programs and features to align with your operational processes, improving compatibility and efficiency across systems.

### Support for Multiple Protocols

Our products support integration with various industrial communication protocols, such as PLC, Modbus, and PROFINET, ensuring seamless connectivity with your existing control systems.

### Multi-System Integration

We can deploy multiple protocols to integrate with client systems, enabling smooth interfacing with various management platforms, such as SCADA, ERP and MES, to ensure efficient data exchange and system interoperability.

### GPSENKE Industry-Specific Management System

GPSENKE is capable of integrating and deploying operational management systems tailored to different industries and projects, ensuring seamless connectivity and optimization for industry-specific needs.

Through these flexible customization services, we provide targeted communication solutions that address the specific needs of complex projects, ensuring maximum compatibility and performance.
